See Innovation in Action

- **Watch the Andrew+™ Pipetting Robot live:**
Experience automated sample preparation and discover how automation can improve efficiency, consistency, and productivity in your laboratory.
- **Uncover smart informatic solutions today:**
See waters_connect™ software in action with tools to improve throughput in data processing.
- **Explore digital demonstrations:**
View interactive 3D demonstrations of our latest mass spectrometers, including ion mobility-enabled MS.
- **Take our quiz:**
Test your technical knowledge, challenge your colleagues, and discover something new.

Meet our experts, see the technology in action, and discuss how Waters solutions can help solve your analytical challenges.
